

Daily Blooming

Ganoderma Lucidum Spore (DBGLS) Oil

Each capsule contains:

100% pure ganoderma lucidum spore oil .. 350mg
120 capsules per bottle, NPN80045562

Ganoderma lucidum is an edible medicinal fungus that has various healing abilities over thousands of years. It been recognized by many as the most coveted of all herbs. The China name for ganoderma or lingzhi, means “spiritual potency”, while the Japanese name as reishi, can be translated as “King of Herbs”.

The main component of ganoderma lucidum spore oil is ganoderma triterpenoid, the concentration of ganoderma lucidum triterpene determines the potency of the ganoderma lucidum spore oil. Daily Blooming Ganoderma Lucidum Spore Oil uses the patented technology of non-critical fluid cryogenic extraction, which is the world’s first and the only company with this unique patent for extraction.

Using this patented DB low-temperature extraction technology, ganoderma lucidum spore oil is close 100% in purity, increasing the potency and maintain the naturally beneficial compounds from being destroyed. DBGLS Oil soft capsule owns NPN (NPN#80045562) – assessed and approved by Health Canada for legality, safety, quality and effectiveness.

Daily Blooming Ganoderma Lucidum Spore Oil contains triterpenoids up to 25% -29% while other ganoderma spore oil products in the market contain only 8% - 10%.

Benefits of DBGLS Oil:

1. Anti-tumor

Researches showed that pure ganoderma lucidum spore oil is one of the best auto immune function regulator and activator, which can significantly improve the body's immune function and enhance the patient’s own resistance to cancer.

2. Liver Protection

This potent herb protects the liver from damage caused by physical and biological factors.

3. Cardiovascular Health

Studies in Japan found that ganoderma lucidum can promotes blood flow and lowers oxygen consumption in the muscle of the heart which helps reduce high blood pressure, lower cholesterol, and prevent blood clots.

4. Anti-aging Effect

Enhance SOD activity, promote DNA synthesis ability of cells in the nucleus, and enhance cell division, regulate metabolic balance, thus delaying body aging.

5. Helps with the treatment of diabetes

Elevates plasma insulin levels to enhance peripheral tissue utilization and liver metabolism of glucose.

6. Chronic bronchitis, Bronchial asthma

Pure ganoderma lucidum spore oil has a significant antitussive expectorant and antiasthmatic effect.

7. Anti-allergic

Ganoderma lucidum spore oil can significantly inhibit different types of allergic reaction, including asthma and dermatitis.

8. Beauty effects

promote the human body microcirculation to achieve the body health. Healthy body is best reflected by healthy looking skin.
